

TRU=SPOKE® Wire Wheels Limited Warranty

Motorspot, Inc. warrants the wheel, to the original purchaser, from the date of delivery, 30 days for out of round, 90 days against rust, and three years against defective material and workmanship under normal use. *This warranty extends to the original purchaser only and is not transferrable.*

Prior to mounting tires on your new wheels, test-fit them on your car. Make sure they clear and fit your brakes drums, suspension and body. If there is any clearance or fitment problem, please call us as soon as you can. ***Wheels that have been mounted with tires are not returnable irregardless of whose fault the problem is.***

Should a problem occur, please call us first. Do not take any steps to remedy or repair the wheels until we have advised you first. Motorspot, Inc. has the sole discretion as to whether or not the wheel should be replaced or repaired. Motorspot, Inc. will not be responsible for installation charges or incidental expenses.

Your wheels will **not** be covered by this warranty if any of the following things have occurred:

- Wheels subjected to abuse, damage, racing, excess load, “hopping” or “jumping”, improper installation or improper mounting of balancing weights or improper installation of the center caps or spinners.
- Damage to the finish or chrome plating due to stone chips or road hazards.
- Damage caused by the use of unapproved polishes or other agents that can harm the surface or components of the wheels.
- **The wheels have been repaired, altered or modified by any person or company other than us.**
- Corrosion or rust occurring outside of the warranty period as described above. **Rust can be prevented by proper care and is not covered by this warranty after 90 days from your receipt of the wheels.**

This warranty is the sole warranty and is in lieu of any other warranty, express or implied including the warranty of merchantability and fitness for a particular purpose. Motorspot, Inc. will not be liable for any other remedy including diagnosis, removal and installation labor, loss of vehicle use, loss of time, inconvenience or any other incidental or consequential damages.

Never attempt to repair a flat tire with a “fix-a-flat” type product. The chemicals used in these products will attack your sealer resulting in costly repairs. Flat tires should be fixed by an authorized tire dealer. All warranty claims will be void if improper cleaning agents are used or no maintenance performed or if the wheels have been subjected to abuse, neglect or involved in an accident.

Returns must have a pre-authorized, authorization number and be prepaid and securely boxed and shipped to Motorspot, Inc. Any shipment of wheels or components to us must be by prepaid freight. Please make certain that you insure the wheels for their value prior to shipment to us. Proof of purchase is required. The original invoice is acceptable. We prefer you ship the wheels back to us in the original cartons if possible.

Special order or custom built wheels are not returnable under any circumstances. Wheels built to your specifications will be warrantied for defects as stated above but cannot be returned unless it is our fault.

Always use caution when mounting tires onto your wheels. An improperly mounted tire can tear the sealer causing your wheel to leak. Please request our complete instruction sheet on how to mount your wheels if you did not receive one with your purchase. Should you have a leaking wheel, we will supply an inner-tube at our expense to you. Resealing the wheels is not covered under this warranty.

Wire Wheels damaged in transit must be reported to the carrier immediately. Please open your wheels up and inspect them as soon as they arrive to determine if there has been any shipping damage. **It is the responsibility of the customer to process their claim for damage through the transportation carrier.**

If you should have any questions, please feel free to call us at 760-731-8303. We thank you very much for your business and we hope that you will be very satisfied with our wheels. We do our best to minimize any chance of the wheels being less than perfect. **Motorspot, Inc.**
